

CONGRESS OF THE UNITED STATES,
Washington, DC, May 13, 2011.

Hon. RODNEY FRELINGHUYSEN,
*Chairman, Energy and Water Development Ap-
propriations Subcommittee, House Appro-
priations Committee, Washington, DC.*

Hon. PETER VISCLOSKY,
*Ranking Member, Energy and Water Develop-
ment Appropriations Subcommittee, House
Appropriations Committee, Washington, DC.*

DEAR CHAIRMAN FRELINGHUYSEN AND RANK-
ING MEMBER VISCLOSKY: As you begin work
on the Fiscal Year 2012 Energy and Water
Appropriations bill, we write to express our
strong support for robust and sustained fund-
ing for the Department of Energy (DOE) Of-
fice of Science, and the critical research,
unique scientific facilities, and expert per-
sonnel that it supports.

We recognize the fragile state of the na-
tion's economy, and support efforts to reduce
the deficit and create jobs. But to do so, we
must set priorities and make smart, strate-
gic decisions about federal funding. We be-
lieve that scientific research is the founda-
tion for the innovative solutions that will
enable us to overcome many of our greatest
challenges—from economic stagnation and
dependence on foreign energy to curing dis-
eases and addressing threats to our national
security. That is why we believe funding for
the DOE Office of Science must be a priority
in fiscal year 2012.

As the nation's primary sponsor of re-
search in the physical sciences, the DOE Of-
fice of Science has built—and maintains—a
unique collection of large-scale, cutting-
edge, one-of-a-kind user facilities relied upon
by approximately 25,000 researchers annu-
ally. Nearly half of these users are univer-
sity faculty and students. Others come from
U.S. industry and many are conducting re-
search for other key federal science agencies,
such as the National Institutes of Health
(NIH) and the National Science Foundation
(NSF). Without these critical facilities,
thousands of users would be forced to move
their job-creating research activities over-
seas, or terminate their research altogether.

The DOE Office of Science also supports a
first-rate workforce of research scientists,
engineers, and support personnel who work
as teams on long-term solutions to some of
the nation's greatest challenges and who are
ready to tackle pressing problems at a mo-
ment's notice. Moreover, it plays a unique
and critical role in the education of the next
generation of American scientific talent, in-
cluding thousands of graduate students and
postdoctoral researchers at hundreds of U.S.
institutions who depend upon DOE Office of
Science support and facilities for their re-
search and training.

This collection of research, facilities and
scientific talent has enabled the DOE Office
of Science to contribute greatly to our qual-
ity of life, our health, and our security. The
DOE Office of Science has been integral to
the development of several innovative tech-
nologies, including MRI machines and PET
scans, new composite materials for military
hardware and motor vehicles, medical and
industrial isotopes, drop-in biofuel tech-
nologies, DNA sequencing technologies,
more aerodynamic and fuel efficient long-
haul trucks, electric vehicle battery tech-
nology, an artificial retina, newer and safer
nuclear reactor designs, 3-D models of patho-
gens for vaccine development, tools to manu-
facture nanomaterials, and better sensors
and detectors for biological, chemical, and
radioactive materials.

By prioritizing funding for DOE scientific
research—thereby supporting both the
human and physical capital—Congress will
preserve our capacity to innovate, reduce
our dependence on foreign sources of energy,
enhance our competitive edge in the global
economy, improve our quality of life, ensure
our national security, and create good Amer-
ican jobs well into the future. For these rea-
sons, we urge you to make strong and sus-
tained funding for the DOE Office of Science
one of your highest priorities in fiscal year
2012.

Sincerely,

Hultgren, Anna Eshoo, Daniel Lipinski,

HONORING THE CITY OF TACOMA

HON. NORMAN D. DICKS

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

Monday, July 11, 2011

Mr. DICKS. Mr. Speaker, I rise to commend
the City of Tacoma for ensuring that sustain-
able policies and business practices are con-
sidered in utility operations and all depart-
mental decisions. I was gratified to see that
the City of Tacoma has partnered with the In-
stitute for Environmental Research and Edu-
cation and local businesses to become a
“Life-Cycle City”—making a formal commit-
ment to evaluate the life cycle environmental
impacts of goods and services. Those environ-
mental costs added up over time are signifi-
cant to our constituents and I commend Taco-
ma's efforts to ensure that we are making the
best possible investments with taxpayer dol-
lars while being responsible stewards of our
environment.

SENATE COMMITTEE MEETINGS

Title IV of Senate Resolution 4, agreed to by the Senate on February 4, 1977, calls for establishment of a system for a computerized schedule of all meetings and hearings of Senate committees, subcommittees, joint committees, and committees of conference. This title requires all such committees to notify the Office of the Senate Daily Digest—designated by the Rules Committee—of the time, place, and purpose of the meetings, when scheduled, and any cancellations or changes in the meetings as they occur.

As an additional procedure along with the computerization of this information, the Office of the Senate Daily Digest will prepare this information for printing in the Extensions of Remarks section of the CONGRESSIONAL RECORD on Monday and Wednesday of each week.

Meetings scheduled for Tuesday, July 12, 2011 may be found in the Daily Digest of today's RECORD.
